# Contents Volume 70

*Vol. 70, No. 1*

Learning and process improvement during production ramp-up
C. Terwiesch and R.E. Bohn . . . . . 1
Information flows for high-performance manufacturing
C. Forza and F. Salvador . . . . . 21
A note on joint estimation of scale economies and productivity growth parameters
E.G. Tsionas and John Loizides . . . . . 37
Minimizing the expected total value of shortages for a population of items subject to practical restrictions on the reorder points
I. Moon and E.A. Silver . . . . . 45
Tolerance synthesis by neural learning and nonlinear programming
M.-C. Chen . . . . . 55
Ordering splitting under periodic review inventory systems
C. Chiang . . . . . 67
Structure optimization for continuous production systems with buffers under reliability constraints
G. Levitin and L. Meizin . . . . . 77
An international comparison of the effect of manufacturing strategy- implementation gap on business performance
B.-H. Rho, K. Park and Y.-M. Yu . . . . . 89
Diary of Events . . . . . 99

*Vol. 70, No. 2*

Minimizing makespan in a blocking flowshop using genetic algorithms
V. Caraffa, S. Ianes, T.P. Bagchi and C. Sriskandarajah . . . . . 101
Scheduling in the two-machine flowshop with due date constraints
B.M.T. Lin . . . . . 117
Equipment flexibility vs. inventory: a simulation study of manufacturing systems
S. Garg, P. Vrat and A. Kanda . . . . . 125
Makespan estimation in batch process industries using aggregate resource and job set characteristics
W.H.M. Raaymakers, J.W.M. Bertrand and J.C. Fransoo . . . . . 145
Forecasting practices of Canadian firms: Survey results and comparisons
R.D. Klassen and B.E. Flores . . . . . 163
The maximal profit flow model in designing multiple-production-line system with obtainable resource capacity
M.-S. Chen and C.-H. Lan . . . . . 175
Minimizing WIP inventory in reliable production lines
H.T. Papadopoulos and M.I. Vidalis . . . . . 185
Manufacturing and supplier roles in product development
D. Maffin and P. Braiden . . . . . 205
Long-term capacity management: Linking the perspectives from manufacturing strategy and sales and operations planning
J. Olhager, M. Rudberg and J. Wikner . . . . . 215

The integrated management of logistic chains in the white goods industry. A field research in Italy
M. Perona, R. Cigolini, M. Adani, R. Biondi, S. Guzzetti, R. Jenna, M. Chessa and S. Agellara . . . 227
Dynamic analysis of changes in decisional structures of production systems
G. Zülch, A. Rinn and O. Strate . . . 239
Diary of Events . . . 253

*Vol. 70, No. 3*

U-shaped production lines: A review of theory and practice
J. Miltenburg . . . 201
Unrelated parallel machine scheduling with setup consideration and a total weighted completion time objective
M.X. Weng, J. Lu and H. Ren . . . 215
Interdependencies between network and activity-analytical descriptions of production relationships in the implementation of large-scale projects – illustrated by textbook production
G. Fandel . . . 227
Linking maintenance strategies to performance
L. Swanson . . . 237
An inter-organizational information system for supply chain management
P.K. Humphreys, M.K. Lai and D. Sculli . . . 245
Machine repairing models for production systems
W.K. Ching . . . 257
Reengineering of materials management system: A case study
R.P. Mohanty and S.G. Deshmukh . . . 267
On the present worth of multivariate quality loss
C.-Y. Chou and C.-H. Chen . . . 279
The economic production quantity (EPQ) with shortage derived algebraically
L.E. Cárdenas-Barrón . . . 289
Letter to the Editor . . . 293
Diary of Events . . . 295
